**Re: ERRATA: Attachment D to Klamath River Renewal Corporation's June 2022
Final Construction Documents Submittal; Lower Klamath Project, FERC Project
Nos. 14803-001 and 2082-063**

Dear Mr. Johnson:

On June 30, 2022, the Klamath River Renewal Corporation (Renewal Corporation) filed its Final Construction Documents¹ for FERC review and comment prior to the Commission's decision on the Renewal Corporation's surrender application. It has come to our attention that the version of **Attachment D: 60% Reservoir Restoration Construction Plans and Design Report** filed on June 30th was incomplete. We ask that you please disregard that version of Attachment D. In its place, we now file a superseding and complete version of Attachment D for FERC's review and comment.² We apologize for any inconvenience. Should FERC require any further information, please direct any such requests to the undersigned. Thank you.

Respectfully submitted,

s/ Markham A. Quehrn

Service Lists (FERC Nos. P-14803-001 and P-2082-063)

¹ *Klamath River Renewal Corporation's June 2022 Final Construction Documents Submittal* (June 30, 2022), FERC accession no. 20220630-5017.

² A complete version of the 60% Reservoir Restoration Construction Plans and Design Report was also filed with FERC in February of 2021. FERC accession no. 20210226-5093 (Exhibit R). The enclosed Attachment D is a refiling of the same documents (unchanged) and is now provided in order to give FERC one consolidated package of construction documents for preliminary review.
